RAIL FLY

Zipline meets the roller coaster ride! Enjoy the rush of adrenaline as you glide into the air and feel the wind blow in your face with Funlandia's Rail Fly. Our company holds Special Equipment Manufacturing Permits from China, which imposes very strict regulations regarding design and manufacturing. By combining extreme fun and top-level safety, Funlandia's Rail Fly will take your indoor playgrounds to the next level.

SHUTTLE ZIPLINE

Unlike the conventional zipline which goes one-way and is manually operated, Funlandia's new invention Shuttel Zipline goes round-way and is operated automatically with a controller, and better yet, it has 2 programmable play modes that are suitable for different types of players! Roaming Mode provides a parent-child duo experience, and Thrill Mode gives adults a more exhilarating ride as the accelerator speeds up in the middle. Audio effects can also be integrated to provide a more immersive play experience. Like all Funlandia products, Shuttle Zipline's safety standards are world-class.

VORTEX TUNNEL

The most immersive and mind-blowing attraction that takes you into a virtual spinning world. This tunnel is designed with a spinning illusional image that cheats your mind. The players who walk into it will start to stumble and can barely stand sraight, it is wildly fun and entertaining for both the players and the viewers. There's no denying that this attraction is going to be the highlight of any modern play center.
