WHAT IS SUPER RUNIO ADVENTURE PLAY?

We've reimagined Super Runio—one of Funlandia's most iconic interactive products—into a complete theme-based interactive indoor playground solution.

Super Runio Adventure Play brings new levels of fun and challenge through:

- Retaining the original wall with both Competitive & Free Play modes.
- New obstacle modules like Floating Ledge and Clown's Fangs Challenge.
- Multi-zone layout for continuous exploration.
- Animatronic scenes and interactive lighting for story-driven immersion.
- A brand-new Magic Circus theme for playful narrative and atmosphere.

SUPER RUNIO

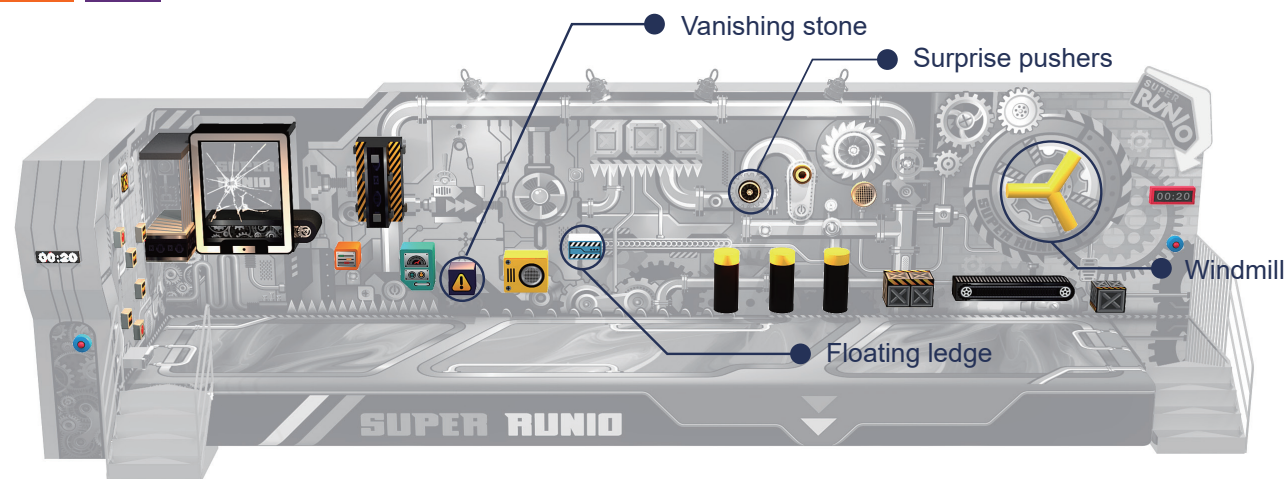

WELCOME TO SUPER RUNIO

An **interactive** and **immersive** indoor adventure challenge game that beautifully combines classic play elements with cutting-edge interactive obstacles. Designed to captivate a diverse audience of all ages and play preferences, Super Runio promises an extraordinary blend of competition and enjoyment.

Super Runio brings an adrenaline-packed journey through an obstacle course inspired by iconic video games and action-packed movies. It introduces a wide array of interactive and dynamic challenges, powered by innovative sensors and programmable controllers. These challenges adapt to every move, creating a world of surprises that will keep your heart racing and your senses fully engaged.

KEY FEATURES:

- A new interactive attraction that draws players of all ages!
- Multiple gameplay modes: Competitive Play, Free Play.
- Host tailored events to drive traffic, appealing to both teens and adults.
- Adjustable difficulty settings keep seasoned players coming back for more.
- Industrial-grade components for low maintenance and high reliability.

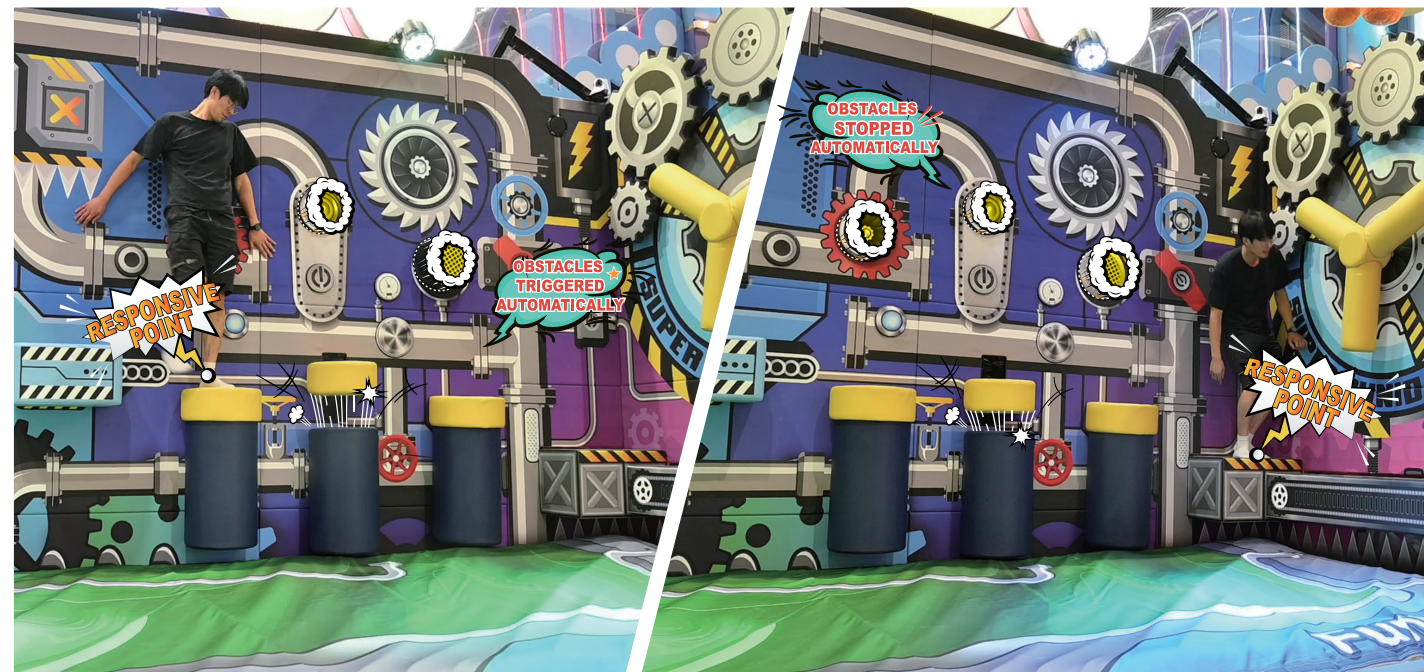

S U P E R R U N I O

S U P E R R U N I O

TRUE INTERACTIVITY

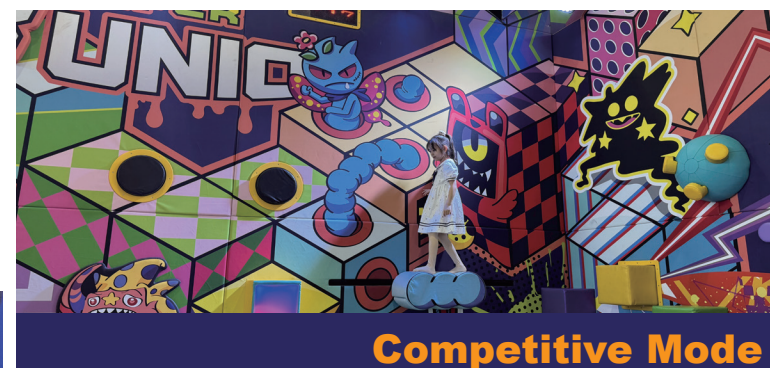

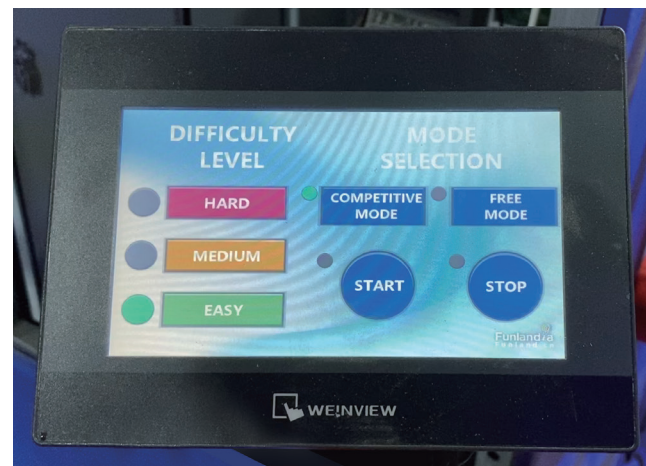

RESPONSIVE OBSTACLES:

Obstacles are triggered as players approach them, and they automatically stop and reset after the player passes, readying for the next user.

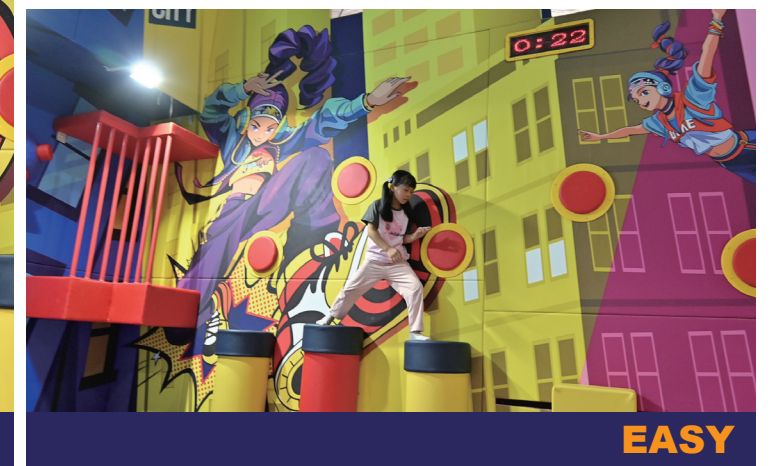

MODE SELECTION

Players can choose between "Competitive Mode" and "Free Play Mode" using the builtin touchscreen computer.

ADJUSTABLE DIFFICULTY:

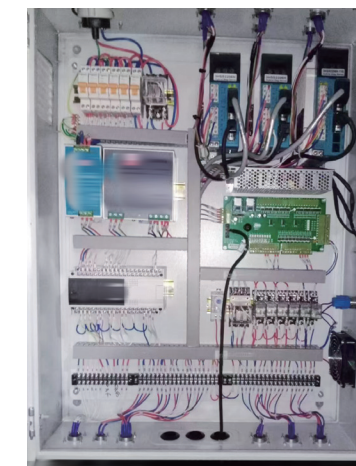

Three difficulty levels are available to cater to different ages and skill levels, ensuring a challenging experience for everyone.

HIGH RELIABILITY

INDUSTRIAL-GRADE CONTROL SYSTEMS:

Utilizing PLC (Programmable Logic Controller) as the core control solution, along with high-precision sensors and closed-loop control stepper motors, the system is as reliable as large industrial equipment.

FREQUENTLY ASKED QUESTIONS

WHAT IS THE COST OF SUPER RUNIO?

The standard cost starts at \$35,000 to \$40,000 USD. Further pricing details can be obtained through Funlandia representatives.

IS SUPER RUNIO SAFE?

Absolutely! Super Runio is designed in compliance with the highest safety standards, meeting both North American (ASTM F1918) and European (EN) safety/quality regulations.

WHAT MATERIALS ARE USED FOR THIS ATTRACTION?

We utilize industrial-grade motors, electrical systems, and our in-house developed industrial-quality control boards to guarantee system reliability. For safety and comfort, our products are covered with soft padded materials, PVC Vinyl fabric, and include an Airbag for safe landings.

WHAT IS THE IDEAL AGE GROUP FOR SUPER RUNIO?

It's suitable for kids aged 5-12 for the Children version. The teenage version is ideal for 10-25 years old.

WHAT ARE THE PLAYMODES AND PLAYER CAPACITY?

Organized Play: Players can play and race one by one, in pairs, or as a group, competing to complete the course as quickly as possible from start to finish. An estimate of 50-80 players per hour can play on Organized Play Mode.

Free Play: All obstacles are activated, allowing multiple players (up to 10-20 players max) to freely engage with the course simultaneously.

WHAT IS THE MINIMUM SPACE REQUIREMENT?

For an optimal Super Runio experience, you should allocate a space of at least 60 sqm with a clear height of 3.7m. The layout should have a minimum width of 6m and a length of 9m.

CAN IT BE CUSTOMIZED?

Yes, Super Runio offers customization options for appearance, minor size adjustments, and the integration of non-motorized play elements (if available).

CAN THE MOTORIZED OBSTACLES BE CHANGED?

The motor programming system for powered obstacles is not customizable. While the powered obstacles can be removed, the sequence of their operation cannot be changed.

DOES SUPER RUNIO COME WITH A WARRANTY?

Like all Funlandia products, Super Runio is covered by a comprehensive 12-month warranty.

HOW OFTEN DOES SUPER RUNIO REQUIRE MAINTENANCE?

Weekly maintenance includes motor lubrication and bolt/nut checks. An ordinary electrician or handyman can perform basic servicing following our guidelines.

WHAT IS THE ELECTRIC CONSUMPTION OF SUPER RUNIO?

Super Runio's standard Model A unit consumes a peak of 1KW of electricity. We recommend planning for a provision of 5KW when wiring or reserving power capacity.
